April is not only the birthday of Rome, but the month when National Latin Exam awards arrive. Brookfield Academy held celebrations for both events.

The high school students throughout Wisconsin already have a convention of their own, but every year, they host a day-long convention for the middle school Latin students at various schools. It's called the WJ²CL – Wisconsin Junior Junior Classical League (Junior squared) – and middle school students take tests and play Certamen as preparation for the real WJCL state convention.
